Colorado State University Flow cytometry, cell sorting, and single cell analysis Core Facility (RRID:SCR_022000)

Resource Information

URL: https://www.research.colostate.edu/fcf/

Proper Citation: Colorado State University Flow cytometry, cell sorting, and single cell analysis Core Facility (RRID:SCR_022000)

Description: Provides access to flow cytometry and cell sorting instrumentation, services, and expertise for all researchers at Colorado State University. FCF includes spectral flow cytometers Cytek Aurora which enables users to perform more than 25 markers in a sample. FCF also has 10X Genomics chromium controller used to barcode single cells to perform single cell sequencing. Offers data analysis of these complex flow cytometry and single cell sequencing samples using R programming or bash shell based pipelines.

Abbreviations: FCF

Synonyms: Flow cytometry, cell sorting, and single-cell analysis core

Resource Type: access service resource, core facility, service resource

Keywords: ABRF, USEDIt

Availability: restricted

Resource Name: Colorado State University Flow cytometry, cell sorting, and single cell analysis Core Facility

Resource ID: SCR_022000
**Alternate IDs:** ABRF_1298
