Proper Citation: University of Michigan Biological Mass Spectrometry Core Facility (RRID:SCR_026718)

Description: Facility provides specialized MS services. The major areas of focus of the lab are Analysis of intact proteins, multi-protein complexes, and protein structure; Identification and purification of compounds from complex mixtures coupled with quantitative analysis.; Purification using mass directed autopurification liquid chromatography. Users can be trained on the instruments for walk-up use or samples can be submitted for analysis.
